Introduction

Purpose

This update bulletin provides a brief description of the new customer-facing features and changes to existing features introduced in Roundtable TSMS 11.2. Other internal changes or bug fixes that have been made to improve organization and/or performance may not be described in this document.

Audience

This document is intended for current Roundtable TSMS users upgrading from 11.0 to 11.2 or Roundtable TSMS users who want to know more about the new and changed features available in Roundtable TSMS 11.2.

Platform Availability and Compatibility

- The Roundtable TSMS 11.2 standard GUI client is available for OpenEdge 10.2B and higher supported Windows platforms.
- The Roundtable TSMS 11.2 plug-in for OpenEdge is available for OpenEdge Architect 10.2B and Progress Developer Studio for OpenEdge 11.0 and higher.
- The Roundtable TSMS 11.2 server is available for all OpenEdge 10.2B and higher supported server platforms.

Roundtable TSMS software earlier than 11.x is not compatible with Roundtable TSMS 11.x repository databases. It is recommended that you maintain a separate repository if you must continue development that requires the use of older Roundtable TSMS releases.

For complete compatibility details of all Roundtable TSMS and OpenEdge releases, please see the Roundtable TSMS Compatibility Matrix available at www.roundtable-tsms.com.

New and Enhanced Features

Roundtable TSMS 11.2 rolls-up all 11.0 service packs and also includes the new features and enhancements outlined below.

Standard GUI Client Enhancements

Usability

- Group Delete tool has been added to facilitate deletion of multiple Workspace Objects.
- Subtype maintenance UI has been simplified by consolidating data to a single window.
- Workspace Event History viewer has been streamlined to allow viewing of more data.
- Object details are now included in compile error logs along with full pathnames.

Plug-in Client Enhancements

Usability

- New quick Object search fill-in added to Configurations View facilitates finding Workspace Objects.
