

WHAT CLIENTS SAY ABOUT
ROUNDTABLE TEAM

“Roundtable Team has saved us a lot of time by helping us eliminate lost code changes and having to redo them. For our customers, it helps our software development lifecycle, so the customer can feel at ease that the code they receive has been through the proper quality assurance and review.

“Not only that, but Roundtable speeds up the entire process, enabling us all to work from the same repository and clearly see what changes have been implemented over time.” —
President & Director of Development, Osprey Retail Systems

Roundtable® Team

Software Version Control for Progress OpenEdge® and Eclipse

Track and manage changes within an unified development platform.

Roundtable Team:

- Leverage your current OpenEdge technology.
- Enjoy seamless integration with OpenEdge and Eclipse.
- Choose a tool from a proven vendor.

LEVERAGE YOUR CURRENT OPENEDGE TECHNOLOGY

The Roundtable Team server is built on technology that you already use and trust — Progress OpenEdge technology, which delivers proven performance, security, and scalability for your software applications. With Roundtable Team, there is no need to adopt new or unfamiliar technology to achieve team collaboration.

ENJOY SEAMLESS INTERATION WITH OPENEDGE AND ECLIPSE

The Roundtable Team client is designed to capitalize on the Eclipse platform — an open development platform designed for rapid tool integration using the plug-in model. Built around the Eclipse team API, Roundtable Team installs easily and integrates seamlessly into your Eclipse-based environment providing a familiar version control interface for all users, regardless of the project type.

CHOOSE A TOOL FROM A PROVEN VENDOR

The Roundtable brand is backed by a proven track record of success that spans over 15 years and hundreds of clients worldwide. As a Progress Technology Alliance Partner, we provide complementary solutions that provide additional value to software development teams using Progress products.

REPUTATION

For more than a decade, Roundtable software has played a critical role in providing Change Management solutions to hundreds of development teams worldwide.

RELIABILITY

Roundtable Team is built on technology you trust — Progress OpenEdge — delivering proven performance, security, and scalability for your valued software applications.

PARTNERSHIPS

Roundtable Software is a technology alliance partner with Progress Software Corporation — a global supplier of software and services that simplify the development, deployment, and management of business applications.

Benefits

Roundtable Team offers the power and simplicity of version control in a distributed development environment.

- Increases change visibility
- Facilitates change rollbacks
- Enforces auditing procedures
- Simplifies collaboration and development
- Competitively priced
- Commercially supported
- Easy to install and simple to use

Features

- ☑ **Atomic Commits** — Ensures that all related modifications are committed as part of a single change set.
- ☑ **Change History** — Enables you to explore the repository at any change level.
- ☑ **Comparison Tools** — Allow you to view the differences between individual files, tags, or branches.
- ☑ **File Revision / Lineage Tracking** — Identifies file versions that share a common parent.
- ☑ **Name Branching** — Enables users to isolate separate development streams.
- ☑ **Optimized Merging** — Utilized file lineage to streamline synchronization between development streams.
- ☑ **Parallel Development** — Enables developers to work locally and synchronize with the repository at any time.
- ☑ **Tags** — Enable you to identify and navigate significant points in development history.

SYSTEM REQUIREMENTS

The Roundtable Team server is supported on OpenEdge release 10.2A and later platforms. The Roundtable Team plug-in requires OpenEdge Architect 10.2A or later or Eclipse 3.4 of later platforms. The Roundtable Team repository requires both OpenEdge database and OpenEdge AppServer licenses.

For more information about Roundtable Team, contact Roundtable Software or your local Progress representative.
